PROFILE **Compositing supervisor** and **lead compositor** in many productions. Strong technical, theoretical and technological graphic design background. I started my visual effects career as compositor 11 years ago. I learned all about the postproduction process from scanner to recorder touching upon linear workflow, photography, lens, colour correction, and everything else concern our job.

Skills: excellent problem solver, ability to learn new working methods, work in a team, organized. Can manage cgi and live action integration, camera projection and set extension. Close attention to detail and the aesthetic look of the image.

EDUCATION Attainment of degree in Video Design from IED, European Institute of Design in Rome. Grade 100/100.
Attainment of highschool certificate from Scientific High School "B.Toushek" in Grottaferrata, Rome.
